

Taking Skills Training Online

Develop our facilitator manuals for free Skills Training services to downloadable PDF formats including self-tests in order for learners to study at home. This will enable us to meet our targets under COVID-19 restrictions, be prepared for another potential hard lockdown, and reach learners who live remotely or do not have the means to access our centre.

The courses include Life Skills, Entrepreneurship, Sewing & Beading, Baby Care, and Cashier & Merchandising. We would also love to develop a short crash course in Financial Literacy and personal financial management as many community members struggle in this area.

Fundraise for Our Initiatives

Are you passionate about channelling support to uplift communities? Do you have a network of family, friends, neighbours and colleagues? There are many creative ways to fundraise with us to fuel our various initiatives, from crowdfunding online, participating in a sporting event, gathering donations for your birthday, and more. Our marketing and fundraising manager will work with you to develop your campaign and provide material and tips.

Capacity Building for Our Team

During these trying times, our incredible team continues to work at the front lines to support vulnerable people, which can lead to vicarious forms of trauma and ultimately take a toll on mental health. If you're passionate about mental health awareness, team building, counselling or capacity building, work with our team to cope and continue providing service excellence for our community.

Connect Job Seekers to Opportunities

Help us to initiate partnerships with hiring businesses to connect unemployed youth and vulnerable women to entry-level jobs and learnerships, including opportunities for foreign nationals.

Develop GBV Support Group Manual

Work with our social workers to develop a user-friendly manual for facilitators of support groups for vulnerable women. This will help us to standardise and improve our support services, and capacitate attendees to host their own support groups – increasing the number of women we can reach.

Topics include GBV, domestic violence, sexual abuse, healthy/unhealthy relationships, human trafficking, etc.

Mentor Young Entrepreneurs

In the current job climate, we are encouraging skills training graduates to start small informal businesses to support themselves. We have a dream to establish an Entrepreneurship Hub at our centre from which young entrepreneurs can meet virtually with business professionals who mentor and coach them on their journey to financial independence, and fundraise for the seed funding they need to get started.

Maintaining our Computer Lab

Conduct routine software and hardware check-ups for the computers in our Skills Training centre and staff computers.

VOLUNTEER STRATEGY 2021

At Lesedi la Batho, we love working with volunteers! By bringing fresh perspectives, ideas and skill sets into our organisation, we can expand and strengthen our impact for the community.

We believe in mutually beneficial volunteering - its not only about what a volunteer contributes, its also about what you gain and learn, so we're excited to welcome you to the family.

Browse our current needs and see what speaks to you! Please contact us at volunteering@lesedilabatho.co.za to chat about how you can plug in and complete your volunteer application form. All volunteering opportunities are also available on [our profile on forgood](#).

All activities at our centre are operating under strict COVID-19 safety measures, in line with our COVID-19 Policy.
